PASADENA by Virginia Marco

As I walked down the road to a wreck building in Pasadena with Diane and De De, I couldn't believe my eyes it is a very mysterious place, I call it THE BEST PLACE FOR GHOST HAUNTING.

The place is empty almost destroyed, burned, but the essences of many people the lived there and died there still intact, you can feel it, you can smell it, and you can hear it. It

is very haunted!

The first building we entered, sitting in a lazy-boy, smoking, I saw a female ghost in her Late fifties. I saw the color of the wall from the past; it was light green, when we entered The next room, there, I saw what I perceived little peaces of wall, painted in light green, but I feel that many people lived there like a house for disables people but not a hospital I saw people being punished, abuse, I can see people being dragged by their hair as well as arms being dragged on the floor. Into another room, I sensed fear, anguish, despair, sadness clouting the room. It is a place where many people left their emotions printed in the walls, the sad part is that it is not confine to one building there are more buildings of terror.

In the next building Mike, Steve and Greg join us. There, is a room where people Practice evil rituals, they open and close a vortex, many ghost come out from the vortex. I saw a female ghost of twenty-five years of age with a white gown, long blond hair very lovely, but she speaks like a shy teenager, Mike, Greg and Steve recorded her voice on tape.
