BELL FLOWER Resident by Virginia Marco

Diane, De De, Richard and I when we arrived to the resident, at the gate, the woman of the house greeted us, while we were walking towards her house I saw a male ghost walking with all of us, he enters the house directly to the master bedroom. The male ghost is very old ninety-five years of age to be precise he is a black man, very small, white hair, he walk with a curve back, his name sang like Bern, he said with feeling "I am alone" and he is not from here he follows the family every where they move, he likes the family and he do things to them for there attention; he smiled.

Usually ghost due thing that is scary to us, a may look evil, but in reality with this ghost He was a playful old man.

The family asked for the ghost to be sending to the light of God to find peace. We did satisfactorily!
