

Hotel Roosevelt- 6-22-02 by Virginia Marco Psychic Medium

In the ballroom: I saw three female ghosts and seven male ghosts from the 1920s.

In room 202, I saw the ghost of a 24 yr. old girl named Beatrice with short blonde hair. She was 5' 4" with green eyes. She was wearing light green Capri pants and light green-checked shirt. In her hand she showed me mushrooms. There was a guy with her. This guy had kidnapped her. She was walking down Hollywood Blvd and this guy did something to her but she doesn't remember what happened. Then she woke up with mushrooms in her hand. She realized that something was wrong and so when the guy came back into the room, she jumped out of the window and inadvertently killed herself. The guy had taken her to room 202. He had long blonde hair, long sideburns, and was 6' tall. I asked her why she didn't go to the light of God. She replied that she committed a sin so she could not leave. Chad was asking questions to Beatrice. The time was 9:48pm. He kept repeating, "Today is September 22." That just so happened to be the day she died. She was in front of Chad, listening to him. She was from Missouri.

Room 928: I saw a male ghost with dark hair around 5' 8" playing the trumpet.

Room 907: I saw a female ghost dressed like a maid doing work in that room.

In the lobby to the elevators there was a male ghost dressed like a gangster sitting on a huge chair. He told me he liked to push people.

In conclusion, the Roosevelt Hotel is very haunted.
