

AGOURA HILLS RESIDENCE by VIRGINIA MARCO October 12, 2002

A female owner contacted the SGVPR because she was experiencing problem with ghost on her property. The view of her property was very beautiful with plenty of green plants and a pleasant lake with houses surrounding it.

When arriving at the indicated property, the owner receive us, the lady is going to build a house on that land, but has many difficulties by which they are caused by the ghost which live there, immediately I saw a male ghost on the small bridge that is on the property, the male ghost was an American Indian, he was Christianized in the 1800s and was wearing a white tunic, white pants, long black hair to his shoulder, his name was Pablo, 30 years old. Soon I saw another ghost a Mexican soldier 38 years old his name was Jose Salazar. Salazar was a deserter from the war and walking by the trail he met with the American Indian and both they were walking by the trails together, until they were shoot from the back but they could not see who kill them.

On the part of the land where the lady is going to construct her house I saw a male ghost from the 1700s dress like a pilgrim with hair dark blonde around 58 years old and a very serious man. The male ghost showed me his small cabana and said that he was Irish, he lift up his right hand and aimed with his finger towards the lady and said " This is my house, that woman is interfering with my daily life", very threatening!

On request by the lady we send the ghosts to the light of God.
